Dear Hiring Manager,

I am excited to be applying for Software Developer Intern position. I am a third-year engineering student at R.V. College of Engineering. My degree emphasis is in Information Science and Engineering, and I have completed 75% of my major's requirements, including the required classes as outlined in your job description. What has motivated me to apply to this position is your firm's participation in several key infrastructure projects near my home and the ability for this position to be a part of that work.

My academic accomplishments also exceed your requirements. I currently have a 8.44/10.0 CGPA. Thank you for reviewing my background in consideration for your internship opportunity. I would be encouraged to have the opportunity to meet with you to discuss more details of my coursework, prior internship, and other experiences relative to your position and company.

Sincerely,
Utkarsh Khandelwal
